KATHERINE PITTS

CAREER OBJECTIVE

Full Stack Web Developer, experienced in C# and ASP .Net seeking a full time position. Background in mechanical engineering with biomedical applications. Eager to contribute my problem solving skills towards building applications, learning new technologies and collaborating with others in the field. Portfolio available at: https://katherinepitts.com

EXPERIENCE

FULL STACK .NET DEVELOPER(REMOTE)
Coder Foundry, Kernersville, NC / Sep 2021 - Dec 2021

- 700+ hours developing full stack, MVC applications guided by software requirement specs.
- Applied SOLID principals to application design.
- Built 3 Full Stack Apps with ASP.NET Core MVC using Bootstrap, C# and JavaScript backed with Postgres databases
- Built six front-end apps with vanilla JavaScript, HTML, CSS
- Worked with CI/CD with GitHub
- Published sites to Heroku and Netlify
- Worked quickly and efficiently to meet weekly deadlines

MECHANICAL ENGINEER
Incube Labs, LLC, San Antonio, TX / Dec 2015 - Jan 2020

- Designed prototype biomedical leads for new product development
- Managed quality control of various individual parts of full biomedical lead
- Developed technical documentation including manuals and work instructions
- Coordinated with vendors to discuss budget and equipment costs
